Double Sigma Open Frame Mixer

Topos Mondial offers the Double Sigma "Open Frame," sanitary designed, 110 degree Overtilt Horizontal Mixers (DSOFHM). These mixers are being offered in several sizes from 110 lb through to 2500 lb. The bowl is a double agitator design. The reinforced mixing bowl, bowl canopy, main shaft, and double sigma agitators are all solid stainless steel. The mixer frames can also be made using mild steel coated in 'STEEL-IT' or from solid stainless steel.

The mixing controls can be custom built to meet your exact mixing needs. VFD controls with a dynamic brake are standard for additional mixing versatility. The heavy duty "Hytos" hydraulic bowl tilting package is easily accessible under the stainless steel lift-off cover. Easy maintenance, heavy duty construction, and a super sanitary design are its trademarks.
