Vertical Post Style Hoists

The new Model T-795 and T-796 Vertical Post Style Hoist (VPSH) from Topos Mondial Corp. is suitable for all of the Topos mixing bowls and troughs. The hoist can be customized to accept other bowls and troughs as well. It features a heavy-duty "I" beam construction, with dump heights to suit customers' specifications. The hoist is capable of tilting bowls or troughs to the left or to the right. It has a compact footprint, and the hoist is easy to operate requiring minimal maintenance.

Shown with optional
bowl scraper system
