

NPL661

PRODUCT OVERVIEW

The NPL661 basket is designed for the efficient flow of buns and baked goods throughout the supply chain, from the bakery to grocery stores, mass merchandisers, restaurants, food service/ concession outlets, and convenience stores.

When full, the NPL661 stack securely for easy transport and merchandising. When empty, they cross-stack and nest for back room and truck space savings.

The NPL661 can be integrated with automated systems and offer smooth surfaces and contoured corners to prevent product damage. Combine with plastic pallets and dollies for a full system to quickly move, store, ship, and merchandise all types of bakery items, from bakery to retail. The NPL661 is fully recyclable at the end of its service life

Please fill out the Request a Quote form for dimensional tolerances if you are designing automation to interface with trays.
